LAW'S NET FINALLY TRAPS 'KING' OF HOUSE OF DAVID

Search of Years Ends as Raiders Seize Purnell in Cult Colony; 'Queen Mary' With Him

BENTON HARBOR (Mich.) Nov. 17. (AP)—Benjamin Franklin Purnell, 69 years of age, "king" of the strange religious colony, the House of David, sought for more than three years as a despoiler of young womanhood under the guise of religious rites, was entangled with the law tonight.

The gaunt, long-haired "king" who in 1905 founded the colony from which it has been estimated he derived \$200,000, was taken from his sleeping quarters early today by State police, released under \$60,000 bond and a few hours later rearrested when a Circuit Court judge held that the bond was not satisfactory.

Later he was released on bonds to stand trial on charges of criminal assault preferred by the former girl members of the colony.

The cult leader was forced to suppose \$100,000 on his cult which served in connection with dances started by the girl complainants. This was in addition to the two criminal bonds of \$60,000 each.

FEARFUL OLD MAN

It was no dashing philanthropist whom the police found when they entered the colony's administration building. Instead there was a feeble old man, hardly able to walk without assistance, a taciturn, silent man who acted like a child and then left what more than man was to be said to him with "Queen Mary."

Purnell left the Kentucky foothills many years ago to come to Michigan to preach his strange doctrine that he is the brother of the Savior and that those who believe with him will be saved.

The Purnells went to Detroit and became members of the colony of the notorious "Prince Mike" Mills. When Mills was sentenced to prison on charges involving the sale of women to Benton Harbor and founded their colony, which grew from a handful to a membership of nearly 1000 at its peak in 1921.

SISTERS ACCUSED

Two sisters—both Banford—Reed and Gladys Bamford Ruhel—made the charges which led to the worldwide search for the man who once was denounced by Federal Judge John E. Parker as the man who "plated sin with the gold of religion."

The girls, one 26 years of age, the other 22, swore that Purnell had criminally assaulted them while they were members of the colony. "Blood purification rite" was the explanation the "king" made for the liberties the Bamford sister charge were taken, not only with them, but with other girls.

The State started a quick move by the colony to obtain Purnell's release pending his examination set for December 23 next, when it obtained a writ of habeas corpus. Circuit Judge Charles E. White that the bonds by two members of the colony for Purnell's freedom was not satisfactory. The \$120,000 bond was signed by eight Benton Harbor business men.

Judge White held that the colony property is in trust and therefore is not legal security.

REWARDS BRING "TIP"

Four thousand dollars in rewards was the lure that brought a definite tip of Purnell's whereabouts. Edward J. Hart, Benton Harbor police chief, was the first to intimate to the State police that Purnell might be at the colony.

Mrs. Beesie Woodworth, a former member, also told officers that Purnell was inside the colony confinement a year ago and that he had every reason to believe he still was there.

The evidence was regarded as sufficient for a raid, but the new warrant was obtained with great reluctance.

Besides the criminal charges Purnell faces action by the State, which seeks to disband the cult. The State court proceedings have branded the king as a religious impostor, a plausibly fraud and a bigamist. Purnell and "Queen Mary" also are charged in the State petition for a relationship with converting thousands of dollars worth of property contributed by members of the colony to their own uses.

"It's a frame-up," Purnell told the Associated Press in a short interview. "It's a set-up. I'm innocent. I have done none of these things."

The white-haired apostle denied he had remained at the colony during the time he has been a fugitive from justice.

Stalwart bewhiskered followers interrupted the interview to carry their weakened leader to the shelter of a porch, the colony's only outlet of the cult. A coterie of the faithful followed anxiously with hands outstretched, ready to catch their leader should he fall.

YEARS TAKEN

Four years of hiding have brought on the long and updating history of "King" Benjamin. The boyish leader, which was a lustrous adornment to day was scraggly and gray. Diamonds with which he fondly bedecked himself were lost, his gold and silver world were missing. White dandal clothes which he occasionally assumed when he cut a reach had a number of torn holes. Benton Harbor were no part of his attire.

"He is a sick man," said Francis Thorpe, one of the colony pillars. "If he had been sick, he would have died in six weeks, he would have died."

W. J. Barnard, chief counsel for Benjamin, declared his client never will be found guilty.

FUGITIVE RECLAMED IN COLONY DURING QUEST

BENTON HARBOR (Mich.) Nov. 17. (Exclusive)—While "King" Benjamin Purnell of the eccentric House of David colony here was being liberated this afternoon on bonds Mrs. Beesie Woodworth, who had been in the colony during the last ten years, was arrested early this morning, was revealing the particulars of her story and her mother was arranging the successful raid.

Her most remarkable claim was that all during the four years the leader of this religious cult was being hunted the world over on warrants charging authority officers against two Ruth Barnard Reed and Gladys Ruhel, former members of his colony. Purnell was smugly concealed about his premises.

Mrs. Beesie, 26, and 21 years of age, apparently much in love with her lottery husband, Emerald Woodworth, will probably be the star witness for the State when Benjamin Franklin Purnell appears before the Court of Justice. Her experiences during the ten years she lived at the colony, she said this afternoon, were paralleled in the case of scores of others. She said that she is considering a suit for the amount of damages against Purnell, but has not actually begun proceedings.

At 5 years of age, she declared, she

THREE GRILLED IN PRISON BREAK

Officials at Folsom Seeking Confession of Plot

Convict Suspects Confined in Dungeons During Quiz

Search for Desperado Trio Pressed in North

SACRAMENTO, Nov. 17. (AP)—Confining in dungeons since Monday evening, three Folsom convicts tonight were grilled by penitentiary officials in an attempt to make them confess the part they are suspected of having played in the escape of three desperado felons, Leo Brennan, William O'Brien and Thomas Griffin, missing since Aug. 1.

At least one of the trio of suspects

is believed to have been in on the plot which resulted in the successful

escape of the three. The犯人 was brought to the House of David, where she was first seen, then her relations with her, as was his custom with many of his companions of her own age and even younger, as a part of the religious rites.

In April, 1925, she was married to Emerald Woodworth, who, with his parents, was a member of the colony throughout their stay in the colony. At the time of the grand jury investigation of the colony, when a whole sale marriage among the girls who frequented his home was ordered by the "King," she was a maid.

She was 15 years of age, she stated, when her presence was first noticed in Shiloh, the building occupied as a residence by Purnell. Thereafter he frequently sent her, explaining his relations with her, as was his custom with many of his companions of her own age and even younger, as a part of the religious rites.

In April, 1925, she was married to Emerald Woodworth, who, with his parents, was a member of the colony throughout their stay in the colony. At the time of the grand jury investigation of the colony, when a whole sale marriage among the girls who frequented his home was ordered by the "King," she was a maid.

Because of the "law of separation" taught by him, husband and wife were not allowed to live together, and the "King" was separated from his wife.

It was with "Queen Mary" that Purnell left the Kentucky foothills and started his colony. He came to preach his strange doctrine that he is the brother of the Savior and that those who believe with him will be saved.

A THREE DAYS COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creosol, an emulsified creosote that is pleasant to take. Creosol is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creosol contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the sputum, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creosol is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or colds not relieved after taking according to directions. Ask your druggist. (Advertisement.)

YES compelled to work in poor light or reflected glare, soon tire and cause the brain to lag, reducing output. Poor lighting is too expensive for any business.

Nature made daylight for eyes. That's why every Emeraldite has a special screen that changes ordinary electric light into soft, eye-saving daylight—ideal for reading or working.

Emeralited offices look better—have contented workers—no eyestrain—greater output—and daytime on every desk.

Emeralited Emeraldines are the best eye strain preventers and have the Davlite Screen. Buy Davlite Screens. Sold by electric supply and electrical dealers.

CORPORATE TAX SYSTEM RAPPED

Controller Says Utilities Mere Collectors

Burden of Levy Passed on to Consumers

Ray L. Riley Cites Need for Equalization

PHILADELPHIA, Nov. 17. (Exclusive)—California's system of taxing corporations to raise revenue for support of the State government in reality does not tax certain public utilities which, due to its operation, are enabled to pass the levy on to the consumers, declares State Controller Ray L. Riley in a paper he read tonight before the National Tax Conference here.

Riley delivered an address on the "Elimination of the State Levy on Property as a Part of a Tax Program," and for the most part he discussed the operation of California's state tax system, which was adopted in 1910.

MERE COLLECTORS

So far as certain classes of utilities are concerned, says Controller Riley, the present tax plan operates merely to make of the corporations Collectors of Revenue for the State due to the fact they can pass the tax on to the consumer. With other corporations, the Controller adds, "the tax is in fact parallel with the 2 cents per gallon levied upon gasoline." The utility is acting as collector, according to Riley.

Riley also insists that the present tax scheme does not provide a method for equalization between private and corporate property; that it encourages the shifting of economic burdens on to the State as a means of obtaining "rough equalization." Riley's paper was read at the conference following the State's.

Separation of sources of revenue has been employed in California since the year 1910. In 1908 a California Tax Commission reported as follows:

"In general, the system of revenue and taxation does not meet the demands made upon it. It fails to provide for equalization between private and corporate property; that it encourages the shifting of economic burdens on to the State as a means of obtaining 'rough equalization.' Riley's paper was read at the conference following the State's.

Separation of sources of revenue has been employed in California since the year 1910. In 1908 a California Tax Commission reported as follows:

"In general, the system of revenue and taxation does not meet the demands made upon it. It fails to provide for equalization between private and corporate property; that it encourages the shifting of economic burdens on to the State as a means of obtaining 'rough equalization.'

HOME RULE URGED

These observations would apply equally well to any present-day tax system. Riley then proceeded to recommend the separation of State and local taxation, thereby taking the burden of State taxation from real estate and establishing immediate taxation in its place in local taxes.

It makes it possible to assess local property at its actual value, there being no necessity to equalize as between counties. They further recommended that the tax be levied upon railroads and other public service corporations. Four years later this program was adopted by the people in the form of a constitutional amendment. Public utilities were classified in order to establish rates for each class.

MERE COLLECTORS

The Railroad Commission of California permits common stock to earn 8 per cent and in fixing the rate for the service rendered, includes the tax bill, therefore, a going concern becomes merely a collector of taxes and the tax is not a burden on the 2 cents per gallon levied upon gasoline and any rate fixed by the Legislature that does not seriously interfere with the use of the service or of use of the service is not a burden on the utility company merely becomes the collection agent of the State.

Short line railroads are in a different class, however, although they are intra-State in character. The volume of business handled by them is insufficient to produce earnings upon the investment no matter what rates are fixed by the Railroad Commission, and the higher the rates become the less their service is utilized, therefore, the tax becomes confiscatory in its nature, entirely different in proportion to the investment as compared with the larger railroad systems.

Street railway companies are comparable to the short line railroads. As increases in rates are necessary to increase the use of the system by the public, therefore it serves as an excessive tax when applied to street railway transportation.

Express companies, inter-State in character, are comparable to inter-State railways.

The only type of corporations where the tax is not a burden is where the tax is 25 on the \$100 of stock, or 25 on the taxable base from 20 per cent to 60 per cent of true value—a deplorable situation and inimical to the public welfare and plan of equalization. Separation of sources seems to imply that there is no necessity to equalize the burden of taxation among the great classes of taxpayers before the State and the others local, municipal, and county governments, and the others.

There is a constant tendency on the part of the people to obtain rough equalization by shifting burdens to the State and there has been an increase in total corporation taxes from 4 per cent of the receipts, as fixed in 1910, to 7 per cent in 1922, and a corresponding rise in all classes. This increase in rates illustrated by comparison with the tax on real property. During the same period of time there was an increase of 156 per cent in taxation on real property and an increase of 307 per cent in franchises. This is the tendency to shift burdens upon the State. The last rise was the occasion of the most bitter legislative fight ever waged in California. The people had voted in an additional State burden requiring a one-third advance in rates to balance the State budget, bare two-thirds majority went into effect. Certain classes of corporations resisted the payment, and consequent litigation lasted four years before the legislative action was finally sustained. All the revenues necessary for State purposes were impounded by a restraining order during all of this period.

It is conceivable that there will be constant friction between the people and the corporations until there is a method devised that will definitely equalize the burden of taxation between these two classes of taxpayers. It is the desire of the State expenditures and will continue to do so until corporation rates reach a point where additional revenues

PATIENCE ENDS; BALM SOUGHT

Woman Retired for Twenty-Eight Years Charges Breach of Promise

JOPOLIN (Mo.) Nov. 17. (Exclusive)—A story of twenty-eight years of waiting in which her dance postponed from time to time the wedding day "because of obligations of dependent relatives," was revealed in a \$50,000 breach-of-promise suit filed in Circuit Court by Sarah L. Applegate against B. Frank Cox, retired capitalist and son of the late J. C. Cox, an early settler.

The two were engaged to be married in June, 1898, Miss Applegate charged, declaring she agreed to postponement as long as relatives remained to whom Cox was "morally obligated."

Now the last relative is dead.

can not be secured through a rise in rates.

FEASTS AND FAMINES

Ordinarily government determines the amount that shall be expended and then proceeds to fix a rate that will raise sufficient revenue to meet the budget. A tax on gross receipts produces feasts and famines. A surplus is dangerous, for tax dollars buy desirable luxuries and rates are never lowered. More ambitious programs are adopted that consume the surplus and create a deficit—always traveling in a vicious circle. It is also inconceivable that any State could effect separation without doing violence to the Constitution, as the several units and grave injustice was perpetrated in California upon those counties who happened to possess a considerable railroad mileage and in some instances a majority of the taxable property within the county. It is probable that we have reached a point in California where further separation is inevitable, at least for the time being and there is a tendency to provide new sources of revenue as necessities may require. We are contenting with a revision of our tax system in the interest of the public welfare.

A consideration of the effect of this method of taxation, as applied to the several corporations taxed for State purposes, reveals some curious results.

The Railroad Commission, which fixes the rates of public service corporations in the State of California, is an important factor in the problem. It is generally conceded that taxation is a part of the overhead in the operation of the service corporations and the inclusion of the tax is necessary part of the rates charged for the service rendered. When this principle is applied to the fixing of railroad rates it will not operate, for the reason that railroads are interstate in character and the short haul to an extent that taxation is incidental, revenue, or tax, or may not be taken into account. One transcontinental railroad operating within the State of California pays in taxes to the State of California 50 per cent of the net in taxes 17 per cent. The same factors applied to intra-State corporations provide entirely different results.

MERE COLLECTORS

These observations would apply equally well to any present-day tax system. Riley then proceeded to recommend the separation of State and local taxation, thereby taking the burden of State taxation from real estate and establishing immediate taxation in its place in local taxes.

It makes it possible to assess local property at its actual value, there being no necessity to equalize as between counties. They further recommended that the tax be levied upon railroads and other public service corporations. Four years later this program was adopted by the people in the form of a constitutional amendment. Public utilities were classified in order to establish rates for each class.

HOME RULE URGED

These observations would apply equally well to any present-day tax system. Riley then proceeded to recommend the separation of State and local taxation, thereby taking the burden of State taxation from real estate and establishing immediate taxation in its place in local taxes.

It makes it possible to assess local property at its actual value, there being no necessity to equalize as between counties. They further recommended that the tax be levied upon railroads and other public service corporations. Four years later this program was adopted by the people in the form of a constitutional amendment. Public utilities were classified in order to establish rates for each class.

MERE COLLECTORS

The Railroad Commission of California permits common stock to earn 8 per cent and in fixing the rate for the service rendered, includes the tax bill, therefore, a going concern becomes merely a collector of taxes and the tax is not a burden on the 2 cents per gallon levied upon gasoline and any rate fixed by the Legislature that does not seriously interfere with the use of the service or of use of the service is not a burden on the utility company merely becomes the collection agent of the State.

Short line railroads are in a different class, however, although they are intra-State in character. The volume of business handled by them is insufficient to produce earnings upon the investment no matter what rates are fixed by the Railroad Commission, and the higher the rates become the less their service is utilized, therefore, the tax becomes confiscatory in its nature, entirely different in proportion to the investment as compared with the larger railroad systems.

Street railway companies are comparable to the short line railroads. As increases in rates are necessary to increase the use of the system by the public, therefore it serves as an excessive tax when applied to street railway transportation.

Express companies, inter-State in character, are comparable to inter-State railways.

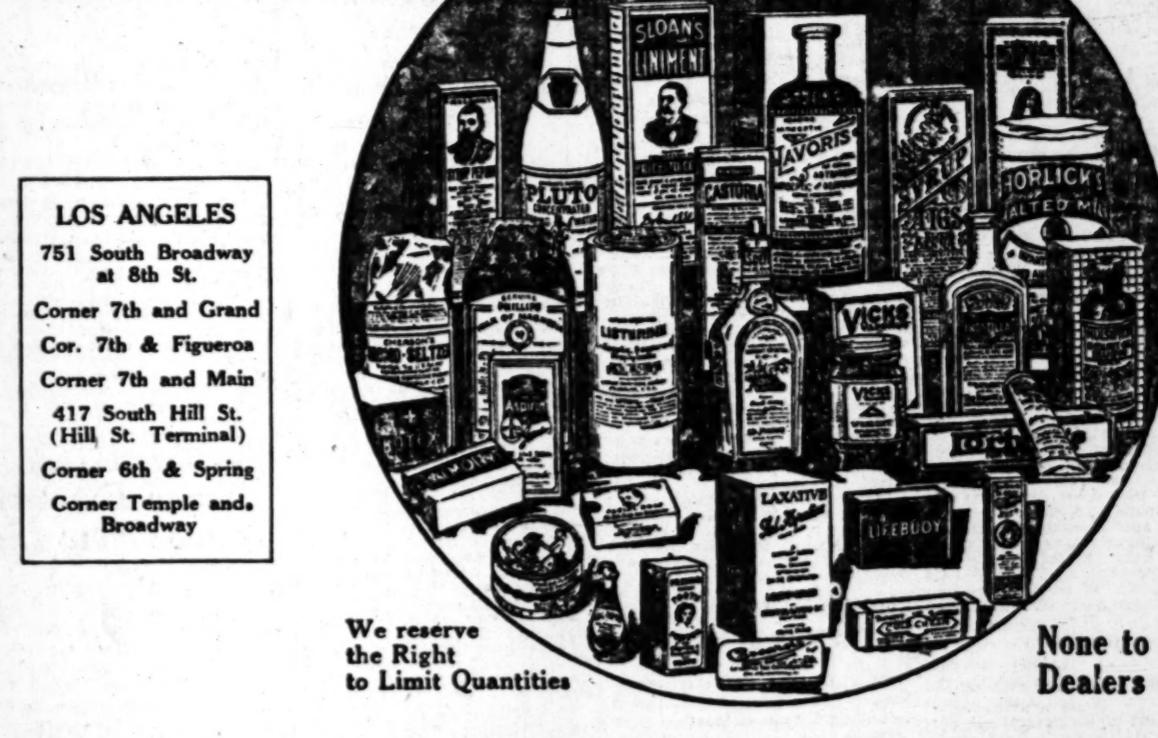

The only type of corporations where the tax is not a burden is where the tax is 25 on the \$100 of stock, or 25 on the taxable base from 20 per cent to 60 per cent of true value—a deplorable situation and inimical to the public welfare and plan of equalization.

Separation of sources of revenue seems to imply that there is no necessity to equalize the burden of taxation among the great classes of taxpayers before the State and the others local, municipal, and county governments, and the others.

There is a constant tendency on the part of the people to obtain rough equalization by shifting burdens to the State and there has been an increase in total corporation taxes from 4 per cent of the receipts, as fixed in 1910, to 7 per cent in 1922, and a corresponding rise in all classes. This increase in rates illustrated by comparison with the tax on real property. During the same period of time there was an increase of 156 per cent in taxation on real property and an increase of 307 per cent in franchises. This is the tendency to shift burdens upon the State. The last rise was the occasion of the most bitter legislative fight ever waged in California. The people had voted in an additional State burden requiring a one-third advance in rates to balance the State budget, bare two-thirds majority went into effect. Certain classes of corporations resisted the payment, and consequent litigation lasted four years before the legislative action was finally sustained. All the revenues necessary for State purposes were impounded by a restraining order during all of this period.

It is conceivable that there will be constant friction between the people and the corporations until there is a method devised that will definitely equalize the burden of taxation between these two classes of taxpayers. It is the desire of the State expenditures and will continue to do so until corporation rates reach a point where additional revenues

Injury May Keep Solly Mishkin Out of Tiger-Pomona Clash

BENGAL PHENOM SPRAINS ANKLE

Loss of Star May Cost Oxy Win Over Sagehens

Varsity Shows Up Well With Strong Fresh Team

Exendine to Start Regular Line-up, is Report

Solly Mishkin, star halfback of the Oxy football team, will probably be out of the game with Pomona at Patterson Field Saturday as a result of a sprained ankle sustained in scrimmages.

The opinion was freely expressed in the Oxy training quarters that Solly will be in shape for the game that has been the annual grid classic of the Southern California Conference since 1896 but one look at his swollen foot and ankle would make this appear more like a bold front than a fact. Not only is his ankle swollen but his toes and whole foot are bloated as a result of the injury. To those who are familiar with a sprain it is common knowledge that such a disability is not incurred in the short space of three days.

With Mishkin out the yardage that will be cut in half, by far the best performances, as records of earlier games have shown Solly to be the man who has made the most valuable gains for the Bengals by a proportion of about 2 to 1. His loss may spell a promising little duel between him and Williams of Pomona, who is expected to Coach Nixon's team that Solly has been to Exendine's squad.

Against the Sagehens Exendine said last night that he will start his regular line-up, including Mike Goode and Jim Farnsworth. These two have been doing a bit of much warming of late and after the rest enforced upon them, Exendine evidently figures them about ripe to start.

In the backfield "Rats" Broket will start at quarter, Warren Hunt and Bronson Euston at halves and George Funder at fullback.

In the freshman yesterday afternoon the second-varisty varsity made a much better showing against the regulars than the regulars. The freshman, however, were outscored against the varsity during the afternoon's play but this was not so much an indication of the weakness of the freshman as it was evidence of strength on the part of the freshman.

The freshman outfit meets the preliminary team at 10 a.m. Saturday.

They have not been defeated as yet this season and have been scored upon but once. Comparison of the two teams to be of equal strength but there is by no record in other games.

BILLY ALGER WINS OVER JOE SCHLOCKER

FRESNO (Cal.) Nov. 17. (P)—Billy Alger, San Francisco lightweight, took an easy decision over Joe Schlocker of Los Angeles in an uneventful ten-round auditorium bout here last night.

Schlocker injured his right hand in the second round and seemed unable to use it effectively during the remainder of the bout. Mies forced the fight all the way with Schlocker confirming his activity to counter punching. In a six-round semifinal bout Jim Chace, Fresno lightweight, took a decision over George Gordon of Los Angeles.

ELIMINATOR STADIUM FIGHT AT 6 BOXING

HOLLYWOOD SOCCERITES FACE SCOTS

Rival Clubs to Furnish Feature Engagement at Loyola Field

The Hollywood soccer football club, whose drive for the City League championship received a rude setback at the hands or feet of the Los Angeles Athletic Club kickers last Sunday, will tangle with the Scots at Loyola Field next Sunday afternoon, but whether the occasion will enable them to restore their prestige remains to be seen. The Scots are an admittedly strong aggregation and have been playing in fine form recently. There is also to be considered the fact that the Jocks had the conquerors of Hollywood to a draw earlier in the season. The outlook for the Scots is none too bright, and they will have to put their best kicking foot forward if they are to keep pace with the Scotsmen.

The tremendous interest in the round ball game, which found expression in the record attendance last Sunday, seems likely to increase and a new high is in prospect for the Scots-Holyon encounter. The kick-off is timed for 3 p.m.

At 1 o'clock the Sons of St. George and the Thistles will clash.

The Sons are given a big edge on the Thistles to cop the points as a result of an impressive showing against Hollywood two weeks ago.

The Thistles still retain the backfield and Elliott, but a glaring weakness is the lack of a halfback.

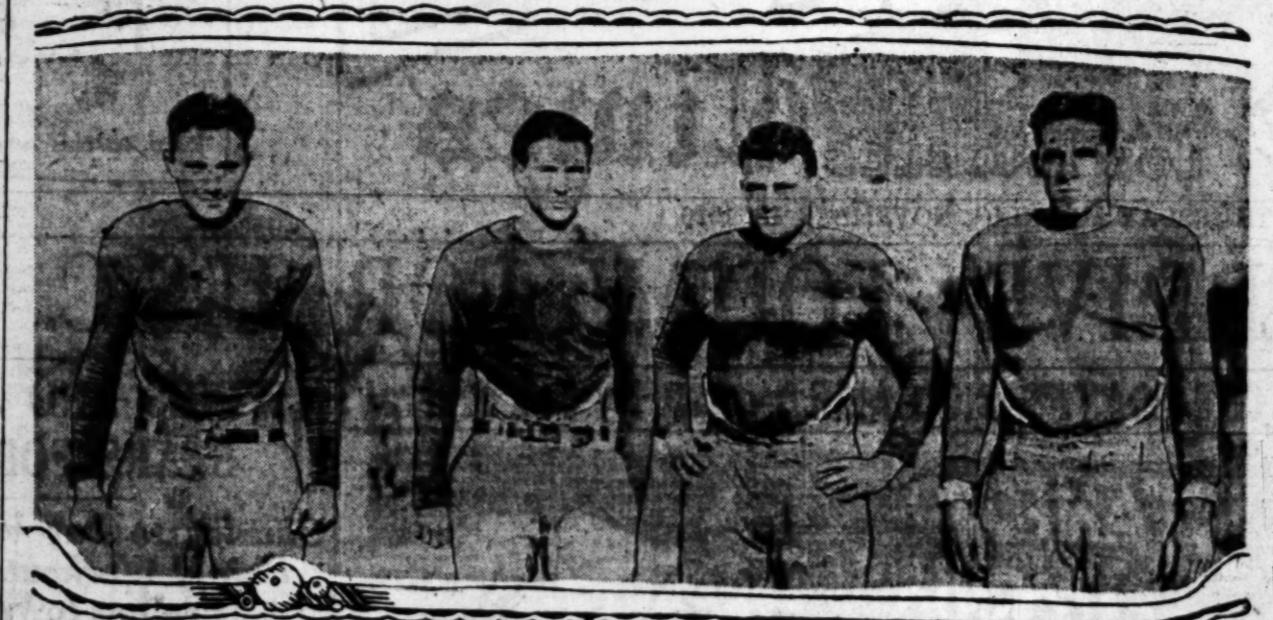

Capt. Burroughs hopes to plug the hole in this department before the clash with the Sons, in which event the Sons might have to content with a division of the points.

HUSKIES TURN DOWN GRID DATE IN HAWAII

SEATTLE, Nov. 17. (P)—The following a report from Honolulu that the University of Washington would be unable to accept a possible football game there in the Christmas holidays with the University of Hawaii. Darwin Meineke, University of Washington graduate manager, said they that the Huskies could not consider such an invitation.

THEY CARRY POMONA'S TITLE HOPES

Here's Eugene Nixon's Sagehen backfield, the four men who will carry the ball against Occidental in Saturday's championship game. From left to right the players are: Manildi, quarterback; Lee Williams, left halfback; Gerwin "Duke" Neher, fullback; and Harold Merritt, right halfback. Merritt is the second best scorer in the Southern California. He and Neher and Manildi played together last year. Williams is a sophomore and alternates with Clyde Patton.

LOUD JERSEYS WILL FEATURE POLY-HOLLYWOOD GRID TUSSLE

BY BOB RAY

Football fans who journey out to the Coliseum tomorrow to see the Polytechnic and Hollywood elevens clash in the game that winds up the City League season and most likely will decide the championship, will at least be assured of a colorful battle. That goes whether it turns out to be one of those wild and wooly prep grid struggles or not, because the loud jerseys that will be used by the rival schools will make it.

Cochs Voiles' Brennans' Mechanics will prance out on the green-sward arrayed in the same brilliant gold uniform that they won at L. A. High. Vic Kelley, who uses the dextics of the Hollywood grididers has purchased a flock of white jerseys and will make his bright red to be used in the Poly game. If that conglomeration doesn't make for a colorful afternoon, what will.

Brennan announced yesterday that he would start the same line-up against the Footbills that he did against L. A. High. The Mechanics have played in the Coliseum but once this season, used the same line-up.

The tremendous interest in the round ball game, which found expression in the record attendance last Sunday, seems likely to increase and a new high is in prospect for the Scots-Holyon encounter. The kick-off is timed for 3 p.m.

At 1 o'clock the Sons of St. George and the Thistles will clash.

The Sons are given a big edge on the Thistles to cop the points as a result of an impressive showing against Hollywood two weeks ago.

The Thistles still retain the backfield and Elliott, but a glaring weakness is the lack of a halfback.

Capt. Burroughs hopes to plug the hole in this department before the clash with the Sons, in which event the Sons might have to content with a division of the points.

THE MOST SPECTACULAR FOOTBALL PLAY EVER SAW

(Continued from First Page)

(Note—Twenty-four of the greatest football players in the world are mentioned in this article. Others will appear daily in The Times and the North American Newspaper Alliance, their names appearing in the columns of the various newspaper football pages.)

XVII FORTY-FIVE YARDS FOR GEORGIA TECH

By W. A. ALEXANDER, (Coach Georgia Tech Yellow Jackets.)

During my years of coaching at Georgia Tech I have had some remarkable backfield and line stars who have shown me many spectacular plays. The work of Douglas Wycoff against Notre Dame two years in succession was the most brilliant, as was his plugging against Penn State when we defeated them twice. But the play for ultraspectacular I would probably should go to Dick Wright, the young player who died last summer at the beginning of the year which should have shown him at his best.

On November 7, last year, Georgia Tech, Vanderbilt University on their home ground in Atlanta, which was full of thrills and about as stubbornly contested as any of my experience. In this game both teams had been beaten by the Tech. The Tech weight having been beaten out by Notre Dame game a week before to go harder for victory, while the Vandy eleven had been especially primed against our offense.

NIP AND TUCK

During the entire first half it was nip and tuck, with neither team able to score, though we gained ground and same nearer than did Vanderbilt. The third quarter was fought out the same way. Vanderbilt had the ball and was a score but our boys rallied and had him. We were never able to get within real striking distance of our opponents' goal line in this quarter.

During the period, Doug Wycoff was injured slightly, but remained in the game. In the fourth quarter neither team made any serious mistakes and it began to seem to all the spectators that the contest would end in a scoreless draw. Here with less than five minutes to play I determined upon a bit of "Nip and Tuck" and withdrew Wycoff, our star, from the game. In his place I sent Dick Wright, fast and elusive. Wycoff had been watched like a hawk all the afternoon and we figured Wright might get a chance. We knew if he did we could come nearer scoring than anyone.

SLIDES PART GOAL

When he went in the game we were about forty yards from the Vanderbilt goal line. On the very first scrimmage the quarterback called his signal for an off-tackle play. Our line got the ball and he was shot between the Vandy end and guard and tackle. Cutting through, he beat for the other side with all his speed. The Vandy quarter dived in but Wright side-stepped and got clear.

He shot forward and in a few steps was clear of the secondary defense, the end and the safety men. The peninsula had gone between him and the goal line. It had passed heavily that week and the field was

now clear of the secondary defense, the end and the safety men. The peninsula had gone between him and the goal line. It had passed heavily that week and the field was

L. Blond Leading Seniors' Turney at Los Angeles; Women Star at Lakeside

VETERAN STAR AFTER TROPHY

Cops Low Gross Last April and is Again in Front

Von Elm to be Honored by Beverly Monday

Three Women Tie for Lead in Lakeside Event

BY BILL WISE

Fred LeBlond, winner of low gross in the annual classic last April, finished with an 82 yesterday to lead the first-day field in the seniors' tournament yesterday for Los Angeles Country Club members.

The two-day competition, limited to club members 55 years of age or older, is for thirty-six holes and low gross trophies are given only, and the principal prize was won by C. K. Seydel in the first day's event.

LeBlond chalked up a 78 low net yesterday, but the day's champion was just six strokes behind. Mr. LeBlond, whose 82 for low gross is coupled with a low net of 77, and is also the lowest score of the day.

More than thirty members are playing through the event which will conclude today and more than twenty have a very fine chance of claiming the trophy at the conclusion of the play-off tomorrow.

Low scores yesterday were as follows:

Fred LeBlond 82-77=159 C. K. Seydel 82-78=160 F. D. Hodson 82-78=160 John B. Hamilton 82-78=160 W. M. McElroy 82-78=160 C. K. Seydel 82-78=160 Douglas C. Clegg 82-78=160 H. T. Clever 82-78=160

LOS ANGELES TO HONOR VON ELM

Phil Force, Jr., in charge of the honorary dinner to be tendered George Von Elm by members in the Los Angeles club home Monday evening, has made arrangements to cover more than 200 expected reservations. Beverly members representing the oldest golf club in Southern California — have always been present at the annual dinner, and while all have congratulated the new national amateur champ singing the function Monday night will show "Jiggs" just what the club is a whole think of this ability.

WOMEN TIE IN

Mrs. E. S. Brown, Mrs. Glenn Colman and Mrs. W. S. Stanley are tied with low net scores of 84, at the end of the first eighteen holes in the University Girls' Intercollegiate Golf Tournament for members of Lakeside. The final eighteen holes will be played today and while three contestants are sharing first-day honors, there are at least two more entries within a nine-point difference, the beautiful trophy that has been offered by the popular Lakeside members. Mrs. Lynn Reynolds, women's club golf director, is very good card through fourteen holes, 86, and is second to hole-in-one record, but failed to hole a one-inch putt. The action was unnoted, but Mrs. Reynolds immediately disqualified herself and will not be eligible to continue in the first of the annual affairs.

First-day low-net scores are as follows:

Mrs. E. S. Brown 84-84=168 Mrs. W. S. Stanley 84-84=168 Mrs. Glenn Colman 84-84=168 Mrs. W. S. Stanley 84-84=168 Mrs. Paul Colman 84-84=168 Mrs. C. L. Rodden 84-84=168 Mrs. Arthur King 84-84=168 Mrs. Bruce Brady 84-84=168

MEDLEY TEAMS PRACTICE ON EL CABALLERO COURSE

Many of the teams scheduled to play football matches in the auxiliary two-ball medley tournament on Saturday at El Caballero Sunday, have been playing practice rounds over the beautiful course this week. El Caballero will undoubtedly be the site

of the tournament.

DEDICATE ALHAMBRA

FIELD ON SATURDAY

ALHAMBRA, Nov. 17.—The athletic field of Alhambra High School will be dedicated Saturday when the Moon play Santa Ana in a Coast League football contest. The new grounds are located on property acquired for a future new high school plant and are at South Sixth street and San Marino avenue.

WOOD INDICTED
AS TYRANNICALTwenty-six Legislators Sign
Protest on ActsCite Score of Instances of
Asserted UsurpationReversal of Nation's Philip-
pine Policy Charged

MANILA, Nov. 17. (AP)—Twenty-six members of the Insular Legislature, in a conference here today, completed "the most vigorous protest against the usurpation of civil and military powers of Gov.-Gen. Wood, particularly against the executive order abolishing the Board of Control."

"The first twenty years of civil government were marked by mutual understanding and loyal co-operation between Americans and Filipinos," the statement issued by the conference said. "In the last two years of this period, when it seemed the god had been finally reached after the President of the United States had advised Congress the time had come to fulfill its promise to the Filipinos to grant them independence," Maj.-Gen. Wood was sent to the Philippines as Governor-General.

"Opponents of the part taken by Wood in the liberation of Cuba, the Filipinos expected that under his administration, the spirit of co-operation would be maintained and the work of political emancipation be completed."

"Contrary, however, to our expectations, his conduct of the government has been characterized by a train of misdeeds and an array of scandals resulting in curtailment of our autonomy, destruction of our constitutional system and a reversal of our original principles."

"This line of conduct recently culminated in the issuance of an executive order whereby he attempted to usurp the functions of the Board of Control and assumed the functions of that body. The gravity of this last step is more evident when we recall the series of usurpations heretofore committed by the Board."

The protest then enumerates twenty-two instances wherein Wood is charged with usurping power.

CLERIC HITS
ANNULLING
OF WEDDINGCanon of Westminster
Amazed at Church Action on
Vanderbilt Marriage

LONDON, Nov. 17. (AP)—Rev. William Hartley Carnegie, rector of St. Margaret's Anglican Church and canon of Westminster, said today he indorsed every word uttered by Bishop Manning of New York in protesting against the annulment of the Catholic church of the marriage of Consuelo Vanderbilt and the Duke of Marlborough.

Speaking to a representative of the Associated Press, Canon Carnegie said he was equally amazed with Bishop Manning at the action of the Catholic church in annulling an Episcopal marriage which had endured for more than five years and from which two children were born.

"It is perfectly scandalous and incredible," he said. "If such action could stand, no one's marriage would be safe."

Dr. William T. Manning, head of the Episcopal diocese in which the Vanderbilt-Marlborough wedding took place in 1895, was quoted as saying in an interview Saturday:

"It seems incredible to me that the Roman Catholic Church, which takes pride in its tradition of discrimination, should show such discrimination in favor of the Duke of Marlborough who, because of the circumstances of his divorce and remarriage, to Mrs. Gladys Dore, of Scotland, was disbarred by the present Bishop of Oxford from attending the Oxford diocesan conference in 1922."

"It would be a serious thing, indeed, and most dangerous in its implications, if the Roman Catholic Church should claim the right to annul a marriage such as this which had been contracted in the church, which resulted in the birth of two children and which was accepted as binding by both parties to it for many years."

DUKE OF MARLBOROUGH
GOES INTO SECLUSION

WOODSTOCK (Oxon, Eng.) Nov. 17. (AP)—The Duke of Marlborough, because of the light of publicity centered on him through the annulment of his marriage to Consuelo Vanderbilt, has isolated himself at his home, Beaufort Castle, his ancestral home, and is seeing no one who could have any object in inquiring into his marital status.

His private secretary, L. Haynes, told the Associated Press today that the Duke had even canceled an engagement to accompany Lord and Lady Borthwick to Madeira this winter, so as to remain out of the public view.

TONDORF MEETS FORBES

Army, in a four-round semi-

length, 180 pounds. Wells, it appears, will have to do more than

clowning to win.

DAUGHERTY'S SECOND
TRIAL TO OPEN JAN. 3

NEW YORK, Nov. 17. (AP)—Second trial of Harry M. Daugherty, former Attorney-General, and Thomas W. Miller, former Alien Property Custodian, will begin January 3. Judge Julius W. Mack, who presided at the trial when Harry Daugherty was to the gallows, is the defendant on charges of defrauding the United States of their disinterred services, fixed the date and approved a motion to have the trial brought before another judge, John C. Knox.

Dieting Woman
Found Too Weak
for OperationHORSES OWNED
TAKES KANSAS CITY RIBBON

KANSAS CITY, Nov. 17. (AP)—Mrs. Frances De La Rue weighed 200 pounds by her own admissions. Her fat worried her and she decided to get rid of it.

Today she was taken to the General Emergency Hospital for an operation for appendicitis, an emaciated figure of some ninety-eight pounds. She explained that she had followed the advice of friends and dieted to such an extent that she lost weight at the rate of eight or nine pounds every thirty days.

Physicians at the Emergency Hospital said it was a good and sound operation. She was taken to the San Francisco County Hospital, where her condition was said to be serious.

PIONEER BASEBALL
PLAYER SUCCUMBS

MARYSVILLE, Nov. 17. (AP)—Lowell C. Williams, 77 years of age, widely known as a baseball player before the days of professional teams, died here today. He played with the Astoria Club of Chicago, which defeated every team except the Stars of Brooklyn, and helped organize the Marysville Intrepids, which became famous throughout California during the early days.

Marshes Ringed
Near San Mateo
for "Strangler"

SURLINGAME, Nov. 17. (AP)—Police forces of San Mateo and Burlingame surrounded a marsh here tonight in hope of arresting a man who attacked and probably fatally injured Mrs. C. H. Murray of Burlingame.

The description of the suspect tallied with that of the "dark stranger" to whom police attribute murderer in San Francisco, Oakland and San Jose some months ago.

Mrs. Murray, a woman of means, had come to her home by representing himself as a prospective tenant for a room she had for rent.

TENNIS PLAYERS IN
LONDON ROMANCE

LONDON, Nov. 17. (Exclusive) Gordon Lowe, 77 years of age, widely known as a tennis player before the days of professional teams, died here today. He played with the Astoria Club of Chicago, which defeated every team except the Stars of Brooklyn, and helped organize the Marysville Intrepids, which became famous throughout California during the early days.

PHOENIX MERCHANTS
INVITED TO EL PASO

EL PASO (Tex.) Nov. 17. (AP)—Phoenix business men have been invited to return to the El Paso party call which was made on Phoenix at the time the new main line was opened and special trains were run from El Paso and Los Angeles.

The week of December 1 has been declared a gala week here and invitations have been extended Phoenix and other Arizona business men to come to El Paso in a special train, particularly with that of the "dark stranger" to whom police attribute murderer in San Francisco, Oakland and San Jose some months ago.

Friends of the family said the actor is suffering from a nervous breakdown. He has been in Waddington since June.

Los Angeles, Calif.American Notes on the
League of Nations

By Garet Garrett

As another "unofficial American observer," more particularly for The Saturday Evening Post, Mr. Garrett has looked over the latest session of the League and tells us what he saw from the front, and also what he saw during a little visit behind the beautiful drop curtain. Though the bill includes many fine brother and sister acts, the old heavies, war and intrigue, still dominate the performance under their new make-up. In The Saturday Evening Post, now on sale, FIVE CENTS.

\$2 BRINGS YOU THE POST FOR A YEAR--52 GREAT ISSUES--\$2!

You can't afford to miss even a single issue of The Saturday Evening Post—the best the world has to offer in fiction and in articles, fifty-two times a year for only two dollars!

To make sure of your not missing anything, the editors read and sift over 50,000 manuscripts each year! And here is just a hint of some of the features they have selected for the coming year.

FICTION: Clarence Budington Kelland has a new serial, laid in a small town, that will remind you of the Caleb Hope Series. Joseph Hergesheimer, with his rare gift of making the past live again, will write a series of romantic stories of the early days of Charleston, New Orleans, Philadelphia, New York, Baltimore and other American cities. There will be more stories of the Basque country by Eleanor Merwin, author

of "Basquerie." Leonard H. Nason, William Hazlett Upson, James Warner Bellah, will continue their war fiction and there will be literally hundreds of other stories long and short by Booth Tarkington, Alice Duer Miller, Harry Leon Wilson, C. E. Scoggins, Ben Ames Williams, Ida A. R. Wylie, Fanny Heaslip Lea, Thomas Mc Morrow, Octavus Roy Cohen, Charles Bracken, J. P. Marquand, Richard Connell, Sam Hellman, Hugh MacNair, Kahler, F. Britten Austin and many others equally well known.

SPECIAL ARTICLES The romance of business, light on foreign affairs, autobiographies of note, in short everything of real interest that is going on in the world today is the theme of the remarkable special articles you can get nowhere else but in the Post. In the coming year you will be fascinated by the reminiscences of

one of the most spectacular figures in European history; one of the most popular stars in the moving pictures; and one of the biggest figures in baseball.

Garet Garrett will contribute a series of articles that will deal with the farm problem of the West and Northwest. "Forty Years in the Grandstand," by Samuel G. Blythe, is a survey and comparison of the old with the new America. A series by George Rector will deal with the fascinating subject of food in America and abroad.

Cornelius Vanderbilt, Jr., whose article "It is Hard to be a Rich Man's Son" will appear in the first December issue, will discuss other questions of the day. Other world figures will contribute their thoughts and views, and a host of interesting personalities will give you the stories of their lives and their achievements.

Your first trip is an adventure with a unique
natural playground, at the end of the trail, com
ing in the disguise of a discovery.

You will not be alone in this discovery at LAKE
ARROWHEAD. Nature lovers, artists and
writers, beauty lovers, sports lovers, and fishermen
live here before you.

Other surprises await you—our Norman English
Village, picturesque and complete; our quaint
Club house with its English roof designed
to fit the snow.

We have at LAKE ARROWHEAD a
complete water system, electric lights and power,
gas, telephones, good roads, and our
modern hotel, a trip of 14½ miles, encircling
the lake.

Accommodations for your choosing are the Lake
Arrowhead Lodge, The Village Inn, The Raven,
Held, and the Country Club; also Cottage Grove
and Camp Fire, two modern Cabin Camps,
fully equipped, and Chapmans Court.

A homesite at LAKE ARROWHEAD is not
expensive; in fact, they are priced as low as
\$650.00.

It will give you happiness, health, and change your
viewpoint in life.

You and your children will be happier and your
ideals will be higher.

Its beauty will increase and you and yours will
enjoy it more each year.

LAKE ARROWHEAD finds its charm in con
trast—there is nothing quite like it in Southern
California nor will there be.

APOLOGY ENDS

CUBAN QUARREL

Diplomatic Relations With

Uruguay Resumed

Good Feelings Result of

Emory's Statement

Interest of Both Nations

Same at Posts

Uruguay, Nov. 17. (AP)—Cuba has

published a statement

quoting Senor Guani

APOLOGY ASKED

The Cuban Minister at Montevideo

forwarded to the State Department

at Havard a report on the Buenos

Aires newspaper statements. Cuba

then requested an apology from the

U.S. Government for the statement

which was made before mid-

Oct. 10.

The Cuban Minister has

asked the U.S. Government to

make an apology to Uruguay for

the statement of Al-

berto, the Uruguayan delegate at

the League of Na-

tions, that Cuba's

representative was restricted by virtue

of the present treaty between Cu-

ba and Uruguay.

GLAD OF END

The Cuban Minister was in-

telligent of the Uruguayan note he

had sent to the President.

"I am glad,"

he said, "that the

Government has

announced that

Cuba would be ordered to

to his post in Montevideo

to settle the incident.

"I am glad,"

he said, "that the

Government has

announced that

Cuba would be ordered to

to his post in Montevideo

to settle the incident.

"I am glad,"

he said, "that the

Government has

announced that

Cuba would be ordered to

Diabetes

Maguey Plant Say Revolutionizes Treatment

Stop Starving
Yourself... Stop
Taking Medicines.
You Get What
You Want, Agave,
the Cactus Plant
from Mexico
AGAVE

Treatment of diabetes will be brought to thousands within a month.

In many cases, sugar can actually

eliminate sugar from the body.

Not a Drug - Not a Medicine

Agave is a sugar-map exactly as it grows in the desert. It contains no drugs or a cactus. Maguey-map used in American speech is a sweet syrup that Americans sugar to drink it. Now by removing sugar, it is a sweet syrup.

Nature's Yams, Viamines, Minerals

Agave is a pleasant-tasting, uncooked syrup-foam rich in vitamins, minerals and sugar. It can be used to rebuild skin tissue so that falling organs again function with glowing health. Also, it is a sweet syrup that Americans sugar to drink it. Now by removing sugar, it is a sweet syrup.

Doctors and users may now obtain

DRUG STORES, at Arnold Demonstration Offices, 115 Hollingsworth Building, and 631 Hill St., Los Angeles, where this pleasant medicine can be obtained free. Or write, stating trouble.

CIVIL LEAGUE TO BACK WAR LINES**Defense Group Planned Only as Voluntary Body****Cashman Denies Washington Emergency Order****New Chief Says Yesterday's Address Misquoted****NEW YORK, Nov. 17. (AP)—The American Civil Legion is initiating or its own volition the formation of a defense body which in time of war could act as an effective "army behind the lines," ready at the call of the War Department. Joseph T. Cashman of New York, newly elected president of the organization, said today The War Department has not requested the body to "reorganize and hold themselves readyness for an emergency," as had been reported he added.****"It is true," he said, "that members of the legion composed of civilian workers during the World War have been in communication with officials of the War Department relative to reorganization of our anti-time draft boards. I was misquoted in dispatches from Philadelphia yesterday, where it is said I told the delegates at the closing of our annual meeting that the War Department had requested selective draft boards to be organized."****What was said substantially, President Cashman asserted was that, in outlining the history of the genesis of the Civil Legion, he had recalled that the Sixth Corps Area, my office, which is the Western Interim 1924 for the National Defense Act, had officially recognized the importance of the "civilian army" a member of which constitute the legion, and "reported recommendations concerning anti-time draft boards as board members as the basis for mobilization."****The object of the Civil Legion Cashman said, is to maintain the legion, who, because of disability or because of special aptitude served in civilian wartime positions. Such organization, he said, while not utilized by the War Department, would be a civilian wartime group which is of national crisis could offer it self as an effective organization to the government.****AGE OF SPOUSE IS CAUSE OF LAWSUIT****VAN NUYS CANNERY HAS BANNER YEAR****SANTA ANA, Nov. 17.—Regardless of what may be considered the prime of life, Mrs. Marie L. Kyle, who married William J. Kyle after he told her he was 45 years of age and physically sound, felt that she was cheated and a stranger to health. Her suit for annulment of the marriage was filed today in Superior Court. Kyle also had told her he owned 100 acres but that she had been falsely alleged. The wife says she was forced to support herself and husband from the profits of her real estate business. The Kyle's were married July 2, 1924, in San Diego. After their marriage Mrs. Kyle learned, she said, that her husband had suffered a stroke of paralysis in 1922.****It is inexpensive and entirely vegetable, therefore harmless—[Advertisement]****HOT TEA BREAKS A COLD—TRY THIS****Get a small package of Hamburg Breast Tea at any pharmacy. Take a teacup and fill it with tea, put a cup of boiling water upon it, pour through a sieve and drink a tea-cupful at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. San Joaquin Light and Power Plans New Financing

Great Western Seeks to Sell Preferred and Common

Companies Place Application Before Commission

New financing planned by the San Joaquin Light and Power Corporation and the Great Western Power Company, both subsidiaries of the Western Power Corporation, was revealed in an announcement just made by the Railroad Commission of California that these two companies have made application for permission to offer and sell a new quantity of stock.

The announcement follows closely the offering yesterday of \$10,000,000 Western Power Corporation series "A" 5% per cent convertible collateral trust gold bonds, which were fully underwritten according to the bankers underwriting the issue. The issue was floated for the purpose of redeeming the company's 5% per cent debentures and to provide funds for additional investments in the preferred and common stocks of the corporation's subsidiaries.

The Great Western Power Company of California has applied to the commission for authority to issue and sell to the public \$1,000,000 par value of 6% per cent preferred stock at not less than \$60 a share and to issue and sell to Western Power Corporation of New York \$2,000,000 par value of common stock at \$50 a share net. It proposes to apply the proceeds from the sale to the reimbursement of the company's treasury for capital expenditures.

APPLICATION FILED

Application has been made by the San Joaquin Light and Power Corporation for permission to issue and sell to Western Power Corporation \$1,000,000 par value of its prior preferred series "A" 5% per cent debentures and to provide funds for additional investments in the preferred and common stocks of the corporation's subsidiaries.

The Great Western Power Company of California has applied to the commission for authority to issue and sell to the public \$1,000,000 par value of 6% per cent preferred stock at not less than \$60 a share and to issue and sell to Western Power Corporation of New York \$2,000,000 par value of common stock at \$50 a share net. It proposes to apply the proceeds from the sale to the reimbursement of the company's treasury for capital expenditures.

PURPOSE OF ISSUE

The company will use the proceeds from the sale of these securities for the purpose of retiring of \$22,725,000 of its bonds and to reimburse its treasury for capital expenditures made and to be made, reimbursement provision of which has not been made otherwise.

Bonds to be retired by the company include \$1,000,000 series "A" first and refunding mortgage bonds, \$700,000 "B" first and refunding mortgage bonds, \$6,125,000 series "B" first and refunding mortgage bonds, \$10,193,000 series "C" first and refunding mortgage bonds, \$1,000,000 undivided and refunding mortgage series "A" 7%, and \$1,500,000 undivided and refunding mortgage series "C" gold 6%.

NEW SERVICE FOR MEXICO

Hancock Interests Establish Steamship Contact With West Coast; Aids Agriculturists

Recent inauguration of direct water freight service between the West Coast of Mexico and Los Angeles is typical of the kind of Mexican pioneering in which Los Angeles business interests have prominently figured. Pioneer in any new country is highly speculative and sometimes the realization of profits is indefinitely postponed, but someone has to blaze the path if others both native and foreign, are to profit and prosper.

The steamship service is the venture of G. Allen Hancock and associates. Mr. Hancock, who is chairman of the California Trust Company and vice-president of the California Bank, owns a large ranch property near Mazatlan on the west coast of Mexico, where onions, rice and other agricultural products are grown. To transport the produce to the Pacific Coast market, Mazatlan has urgently needed a steamship service with proper facilities for perishables which Mr. Hancock has undertaken to provide.

COOLED BY AIR

More as an experiment than anything else, we purchased the steamship Caxaca, reputed as one of the fastest freighters afloat, from the Mexican States Line, and have equipped the boat with air-cooling facilities. One trip has been made, and the freighter will leave Los Angeles Harbor on the second voyage to the west coast to collect a substantial cargo of perishables. While on the first trip, Mr. Hancock accompanied by James Forst, vice-president of the California Bank, made a thorough survey of the traffic possibilities.

From the Indians for whom the Caxaca and Hancock owners are confident that an important volume of traffic will ultimately develop. Right now, the traffic on the west coast is extremely limited, but the opening of the port facilities for railroad shipments, and the irregularity of rail service, the Southern Pacific of course will soon provide a more efficient service when construction is completed, and it is believed that steamship service will always find a demand.

The West Coast banana industry, according to Mr. Hancock, is particularly in need of a steamship service that will provide air-cooling facilities. Bananas have been found, spoil easily, and the prospects are accordingly extremely favorable for Manchester textile mills.

The banana industry is beginning to reach important proportions, but the future depends on proper methods of transportation. In two years, it is estimated, the 125 section will be shipping 1,000,000 bunches of bananas annually.

LARGE TOMATO HARVEST

Tomatoes, peas, bell peppers and other winter vegetables, grown in large amounts on the west coast, are being shipped to the east coast at different temperatures, while air-cooling facilities permit the right variation in temperature that will keep the fruit fresh. The Mazatlan banana industry is beginning to reach important proportions, but the future depends on proper methods of transportation. In two years, it is estimated, the 125 section will be shipping 1,000,000 bunches of bananas annually.

Another indication of west coast agricultural development, Mr. Hancock reports, that about 35,000 tons of high-quality rice will be produced in the Valley of Sonora.

The Hancock steamship rear Mazatlan, about 5000 acres in extent, is a large producer of various agricultural products, and also has a large quantity of dairy products. Most of the building material of which Mazatlan homes have been constructed has come from the Hancock docks.

NEW YORK CURB STOCKS

NEW YORK, Nov. 17. (AP)—Sharply
contrasting price movements, reflecting
the play of opposing speculative
forces, characterized today's curb
market. Public participation was
again on a small scale, although sev-
eral pools tried hard to attract an
outside following by bidding up spe-
cial issues.

Prices, downward revision of
crude oil prices in the midcontinent
field brought some selling into
the high-grade domestic oil shares,
losses of a point or more being re-
corded by Vaseline, Gulf and others.
Pipeline stocks were strong
on odd-lot trading, and a good de-
mand developed for several South
American issues. Carib Syndicate
showed up with a point, while
American Maracaibo improved fractionally.

The industrial group, a brisk de-
mand developed for the American
Sealing Company, which have been
making new high records almost
daily for the past month. On
the other hand, American Rayon
showed up, American Writing Paper
showing up, and National
Food Products B sank to new low
levels for the year.

Elsewhere in the industrial list, the
strength of the oil, Coal, Bond
Kardon and Republic Motor certifi-
cates contrasted with the weakness
of Curtis Publishing, Johns Manville,
Singer Manufacturing, Victor Talking
Machine, and Firestone.

Although in some instances the vol-
ume of trading was extremely small,
heavy buying of Southeastern Light
and Power established a new high
by Union Gas and Im-
provement (new stock) overshadowed
all other developments in the pub-
lic utility group.

The closing price of another issue came as the
new low and closed off the rally, al-
though a few "bids" were made in
an attempt to attract a following.

Merchandise, mining and
bank shares presented some areas of
strength, but most of the
day was a holiday.

The market worked upward
in the early trading, largely in re-
sponse to a lowering of oil money
through a few "bids" which
eventually led up to a following.

day was a holiday.

The market worked upward
in the early trading, largely in re-
sponse to a lowering of oil money
through a few "bids" which
eventually led up to a following.

Merchandise, min-
ing and bank shares
presented some areas of
strength, but most of the
day was a holiday.

GOOPS!
A Daily Lesson in Manners for
Children
BY GELETT BURGESS

Copyright, 1924, by The Chicago Tribune.

SNUFFLING.
I took a little boy to walk.
He didn't tease, he didn't talk.
He didn't run, he didn't lag.
He didn't pull, he didn't sag.
He was a Goop, though, I suppose.
Because he snuffed with his nose.

"Times" Daily Short Story

The Well-Guessed Woman
By RUPERT HUGHES

Suddenly both men started—Miss Elaine Tobelman was gliding by with a something heavenly of serene meek loveliness playing about her.

WOMEN are a mystery," sighed Leland Warren, a passionate young fellow as ever was.

"Mystery nothin'" roared Calvin Calver, as hard-headed a man as ever boasted of being self-made—and took more than his share of the blame.

You can watch their thoughts swimming round inside their little heads like in an aquarium."

Warren and Calver were staring through their up-ended glasses at the Fifth Avenue window. Such a type of that characters became caricatures.

Suddenly both men started. Miss Elaine was gliding by with a something heavenly of serene meek loveliness playing about her, as if she carried along an invisible string.

With the sight of her both men rose at once. Warren, being the younger, reached the door of the clubroom first. Calver turned back and went up the hard steps.

Warren's long strides rapidly over-
took the three-inch steps of Elaine's
stroll. He was waiting on the door for her to come in, doubt of something.

"You're too beautiful to be jested
over," he said. "You're the most
glorious thing about it."

"Why?"

"I'll be a slave to any man!"

"A slave? You a slave? I'm to be
the slave?"

"Please take me home."

Encouraged by the dreamy surren-
der in her eyes, the serenader grew
bolder. "Mighty nothin'" he roared.

Calver, as hard-headed a man as ever was, was bold enough to climb and throw a foot over the balcony.

"Give me life to your service. Let
me worship at your feet. Marry me, and I will bless you on my knees."

"No!"

"Why not?"

"I'll not be a slave to any man!"

"A slave? You a slave? I'm to be
the slave?"

"Please take me home."

Encouraged by the dreamy surren-
der in her eyes, the serenader grew
bolder. "Mighty nothin'" he roared.

Calver, as hard-headed a man as ever was, was bold enough to climb and throw a foot over the balcony.

"Give me life to your service. Let

Cordon Thrown Around City in Search for Prisoners

JAIL BREAKERS ELUDE CAPTURE

Pair Commit Felony to Flee Just Prior to Release

Police Believe They Feared to Face Further Inquiry

Officers Seek Confederate as Furnisher of Saw

While Joseph Kall, 28 years of age, and Victor Brophy, 27, still were eluding officers last night, police detectives were investigating to find out why the two fugitives had committed a felony by breaking out of the City Jail yesterday morning when both had only eighteen more days to stand on misdemeanor charges of vagrancy.

Concluding that Kall and Brophy sawed their way to freedom because the tools which the police were examining there were more serious crime than that for which they were serving short sentences in the City Jail, a squad of detectives under the direction of Detectives Cahill and under the personal supervision of Assistant Captain of Detectives Cahill, were making special efforts last night to apprehend the pair.

ROADS GUARDED

Descriptions of the two were broadcast by teletype, telephone and wire throughout the southern part of the state. Special agents of the office in automobiles regularly assigned to the apprehension of auto thieves were ordered to watch all roads leading out of the city.

Brophy, alias Carl S. Seely, is known to the police, according to Malina, as a hard egg. His police record shows that he twice had been taken into the police station and was serving a short sentence for a minor offense.

As though to "take no chance," and Brophy and his partner are cornered and found to be armed to the teeth.

As these armed squads of detectives continued the pursuit of the jail breakers, Finger Print Expert Barlow reported that he had positively had identified one of the prints as being a hand saw used to saw in two one of the window bars of the jail as that of Brophy. A strange print found on the same bar had been identified as having been left there by a third man aiding the jail breakers from the outside.

SAW PUZZLES

Brophy and Kall made their escape shortly before 11 a.m. yesterday through a window in a lavatory on the third floor of the City Jail. A number of trustees are allowed to visit the jailers and their wives, formerly were occupied by female prisoners. Only one bar was sawed, the prisoners squeezing themselves through an aperture hardly more than a handbreadth in diameter. They descended to a parking station on the south side of the jail by climbing down a drain pipe.

A check of prisoners in the jail yesterday showed that Assistant Jailor Mailheau had discovered the break before any more prisoners had time to escape. An investigation of how Kall got out with which the bar of the window was sawed was set up at the jail also is being made by Chief Jailor Shand. It is believed that a confederate of the prisoners sent the signal up to the outside by pulling a light rope up to the two men.

JAPANESE TOUR PARTY WELCOMED

Nippon Trade Leaders Here After Trip Through Eastern Business Centers

After giving this country the once-over of a party of twenty-two prominent Japanese business men, most of whom from Osaka, Japan's Chicago, arrived in Los Angeles yesterday this being their last stop before setting sail for their own country on Saturday. The party, which landed in San Francisco from Japan about two months ago, has visited most of the eastern centers. They were received at the station by representatives of the Los Angeles Chamber of Commerce, the City Council office and the Chamber of Commerce.

A dinner in their honor was given by Consul Oshahi at the Kawashima Inn last night. The Japanese party will be taken on a sight-seeing tour tomorrow. The Los Angeles Chamber of Commerce will arrange for a visit to the beach and the harbor districts.

"The Japanese business men showed our party more than anything else in America is the large scale on which business is being done in this country," said Captain S. S. Cahill, commanding Thomas Cook & Son at Osaka.

The party includes bankers, owners of packing houses, stock exchanges, insurance companies and members of chambers of commerce. Among the more prominent men are Seitaro Maruhashi, president of the Kokura Chamber of Commerce; Eiichi Ono, Kotohiko Shima, and bank director, Saithei Shima, Wakayama capitalist; Kyomasu Murase, president of the Beef Dealers Association of Kyoto; Inoue, chairman of the association for trade investigation in America of the Otaru Chamber of Commerce, and Takatoku Oka, member of the City Assembly of Uwajima.

CHARGES OF TRUST-DEED FRAUD MADE

Deputy Prosecutor Says Millions Involved as He Accuses One Loan Broker

Trust deeds to the amount of several million dollars of property involved in asserted fraudulent transactions are on file in Los Angeles county, according to a declaration made yesterday by Dep. Dist.-Atty. Lickley. He made the statement in connection with the issuance of a complaint against Sam M. Siegel.

The charges in question, he said, were obtained in transactions of an apparently unusual nature.

Siegel, who has not been arrested, is charged in the complaint with having forged and forged instruments to be filed and recorded, and with supplying false evidence.

According to Lickley, Samuel and Sophie Harris, who had a \$6000 loan from Siegel, and put up a deed of trust for \$8500 when Harris found he had to pay a cent interest on the sum he had been invested with him, signed under the usual notaries, it is said. This case is pending.

JAPANESE GETS BEAUTY HINTS American Methods Studied by Visitor

NEW EFFORT TO BUY CAR LINES

(Continued from First Page)

order to thus be accepted by the public until the proposal for the bonds to be self-supporting. Whether this could be demonstrated to the satisfaction of the voters is a question which is giving the City Hall management much trouble. The company in 1925 paid bond interest of \$1,245,000 on less than \$200,000,000 in bonds and out of a net revenue of \$2,229,000. What the interest on \$400,000,000 or \$450,000,000 in bonds would do to such net revenue is a matter of arithmetic.

Of course both sides hope that the net revenues of the company will be greatly increased. It is also to be hoped that the company's application for an increase in fares has any connection with the city's plan to buy the system. However, it is not denied that such an increase would, if allowed by the Railroad Commission, might make just the difference necessary to permit the scheme to be carried out.

The application for higher fares the company lays much stress upon its poverty-stricken condition and points out that it has not paid a dividend for thirteen years or so. The city, however, reasons, it is not regarded as likely that the Clegg-Pairot administration will be found among those very vigorously protecting the public interest in the streetcar fare. A show of resistance is anticipated as was the case with the telephone rates.

LONG AMBITION

The present city administration has long had in mind the plan to buy the streetcar system with its \$12,000,000 or so of annual gross revenues and its nearly 6000 employees. Negotiations have been on the way for more than a year ago with Mr. Huntington. The latter is said to be quite willing to sell if he can get his price.

Two years ago a joint board of engineers representing the city, the Railroad Commission, the Los Angeles Electric Railway and the Pacific Electric brought a report recommending that the city take over the lines under a unification scheme between the red and yellow car systems. It was originally planned to use this report as the basis for negotiations, but lack of propaganda "sold" the idea to the public. The details leaked out, however, and the public reaction was so strong that the plan was permitted to sleep for a year. It has now been revived by the railway company's receipt of a formal memorandum from the city authorities to the city counter-offer to the company's original offer to sell, prepared at the city's request.

SOME HISTORY

The Los Angeles Railway Corporation was incorporated under California law, November 7, 1910, as the successor to the Los Angeles Railway Company. The company took over the lines owned by the Pacific Electric Railway and Los Angeles Interurban Railway, and portions of the lines of the Los Angeles and San Pedro Railway and the California and Pacific Railway. A large part of the mileage is on private right-of-way and 90 per cent of the lines are double-tracked.

The corporation franchises extend beyond 1940. The length of the track operated was, on August 15, 401,210 miles. The corporation has operated a number of lines, and owns the entire stock of the City Railway Company of Los Angeles.

Incidentally, while absorbing most of the lines, the corporation made an effort to introduce certain beauty aids that prevail in Japan, especially the kanoko, a type of hair ornament, consisting of a small, round, white, gauzy pom-pom in hair. "The kanoko was originally designed for long hair, but I believe it may be modified so as to provide an effective ornament for short tresses, also," he said.

The City Railway Company of Los Angeles was incorporated under the laws of California on December 10, 1910, to purchase equipment and to construct new lines in the interest of its parent corporation. Its capital stock is given by the manager as \$1,000,000.

The officers of the Los Angeles Railway Corporation are: H. E. Huntington, president; G. J. Kuhrt, vice-president and general manager; H. E. Huntington, secretary-treasurer, controller, and the directorate includes these officers and in addition Albert Crutcher, C. E. Culver, G. S. Paton and A. G. Walker.

REVENUES AND TRAFFIC

The net operating income of the Los Angeles Railway for the six months ending June 30, last, after depreciation and taxes, amounted to \$709,777.05, as compared with \$824,044.57 in the corresponding period of last year. Passenger revenue during the first half of this year totaled \$3,998,198.74, as against \$2,044,100.00 in the first half of 1925.

Millard's troubles here were legion. As a result of the Temple Circus staged in Praeger Park, April 1923, he became involved in charges of perjury and was held in jail for a month.

"Whereas, the granting of such relief to him would tend to affect the welfare of the workers of the city in that it would act to increase the living cost, and . . .

"Whereas, the City Council is vitally interested in all matters which rest upon it . . .

"Therefore Be It Resolved That the City Attorney and the Board of Public Utilities to take immediate steps to oppose the contentions of the defense, and to otherwise appear in behalf of the patrons of the railway company."

This Millard has declined to reveal, according to the news dispatches, his exact position in the Times yesterday morning, with the start of Millard's little profit-taking job.

This Millard has declined to reveal, according to the news dispatches, his exact position in the Times yesterday morning, with the start of Millard's little profit-taking job.

Any man or woman who is active in the Times' mammoth prize campaign is sure to be rewarded handsomely. In addition to the thirty splendid automobiles to be awarded, there are nearly two-score expensive radios and a large number of prizes. Prizes for 10 per cent commissioners are to be paid to active candidates who do not win one of the larger prizes. Thus no one's efforts need go for naught in this great prize sweepstakes.

There is still time to enter and turn in \$80 clubs on the 90,000 extra vote offer. A few new subscriptions will be accepted to keep the latest published standing of leading candidates. Look for the nomination blank printed elsewhere in this issue. Get it in, get in touch with your friends, neighbors, associates and be one of the thirty happy men and women who will receive fine new motor cars for Christmas!

PARKING ZONE ANNED

The establishment of one-hour parking on Vermont avenue from Santa Barbara to Vernon street has been requested of the City Council by property owners on that street.

STORM DRAIN URGED

The preparation of engineering plans and ordinances for a storm drain system for the Sawtelle district has been recommended to the City Council by City Engineer Shaw.

THE LANCER

(Continued from First Page)

Central Park. "How do you like my park?"

"I like it!" stammered Shubert, taken aback.

"Sure, I own that park," she retorted.

PEITION FOR PAVING

Property owners have petitioned the City Council to pave Figueroa street from One Hundred and Second street to One Hundred and Nineteenth street.

THURSDAY MORNING RECORD GIFT IN CHEST APPEAL

Family of Col. May Tend Sum of \$22,000

Many Groups of Employers Exceed Quotas

Contributions to Date Read \$1,285,804 Total

Here are the outstanding facts and figures of the Community Chest appeal to date: New subscriptions yesterday \$18,512, or 5.84 per cent of the total budget. Total subscriptions to date \$1,285,804, or 39.93 per cent of the total budget. Net subscribers yesterday 12,728. Total subscribers 30,388. Total budget \$3,220,114.25. The workers meet for a report at luncheon daily at noon at 12:15 at the Baltimore.

Including the largest gift of and of the appeal—a sum of \$2,000 from the family of Col. David May, Los Angeles merchant—total contributions yesterday to the Community Chest totaled \$181,813 from 3,720 donors.

The goal of the appeal, the amount of \$114,250, is now 99.93 per cent of the total budget. The total contributions to the appeal, now in its second month, are \$1,260,500. The final amount will be \$1,280,000. The amount of 3,720 citizens of Los Angeles.

The gift of the May family, the largest of the appeal, was announced at a meeting of employers at the Baltimore yesterday. It was given with applause.

Water L. Thornton was the speaker of the day while John O'Malley, president of Division 8, presided at yesterday's gathering. A musical program was furnished by Guiters band of all Nations. Tickets for the noon hour by Fred Solomon.

EMPLOYED "OVER TOP"

Employers of the Yellow Taxicab Company over the top with contributions totaling \$10,000. It is reported.

Employers of the Julian Petroleum Company, an anonymous donor, contributed \$1,000, as announced yesterday. Julian employees prepared a quota of \$750, raised \$1,360 for the Chest.

Employers of the Pioneer Pub Company, with a quota of \$750, raised \$800.75. Employees of the Hollywood Hardware Company, with a quota of \$125, raised \$204. Other firms and organizations overhauled their contributions, as announced yesterday. Julian employees with a quota of \$750, raised \$1,360 for the Chest.

RECORD GIFT IN CHEST APPEAL
Total of Col. May Tenders
Sum of \$22,000
New Groups of Employees
Exceed Quotas
Contributions to Date Reach
\$1,255,204 Total

Here are the outstanding details of the Community Chest appeal to date:
New subscriptions yesterday, \$1,000 per cent of the total budget.
Total subscriptions to date, \$1,255,204 per cent of the total budget.
New subscribers yesterday, 2,200.
Total subscribers, 70,582.
Total budget, \$3,220,114.25.
The workers meet for a report tomorrow daily at noon at 1215 at the Biltmore.

Following the largest gift of the year, the sum of \$22,000, the total contributions of the community chest to date are now \$1,255,204. The donors number 70,582 citizens of Los Angeles.

The gift of the May family, second in the history of the appeal from the family of Col. David A. and Mrs. Los Angeles merchant—concerned yesterday to the Community Chest totaled \$181,615 from 1215 hours.

At the time of the appeal, the sum of \$1,255,204, is now 39.30 per cent of the total budget. The total contributions of the community chest to date are now \$1,255,204.

After notifying them that the community chest had been established, Clark stated the Council's action was against their legal rights, and he will take the matter through the courts of California and to the Supreme Court of the United States if necessary.

"I will pay the entire cost of suit

in this appeal to justice," Clark said.

"I feel that Christ's tears cannot be softened by the sordid motives

of those who oppose us in their at-

tempt to desecrate the last rest-

ing place of our beloved ones."

"You can rest assured that every

necessary legal step will be taken

to protect your rights in the cemetery," addressed the advertisement.

"To all lot, crypt, and niche owners

of the Hollywood Cemetery Associa-

tion."

A Tea Room for Gentlemen as Well as Ladies

Feeding the "army" on Tillamook—

LUNCH time! Here they come—the army of western business women! Clerks, stenographers, telephone girls, bookkeepers, proprietors of shops.

Restaurants, lunch counters, cafeterias are ready for them—they know the taste of the advancing army—

Cheese sandwiches—stacks of them in all their variations.

"Is it Tillamook?" they query.

It is! Assuredly!

The great herds and the expert cheese-makers of Tillamook Valley are busy the year around supplying the demand of lunch-time appetites which once having known the taste of Tillamook full cream cheese, cannot be satisfied by anything less! Look for Tillamook when you buy!

TILLAMOOK COUNTY CREAMERY ASSN.

TILLAMOOK, OREGON

Twenty-five cheese factories are now making cheese exclusively by the dairymen of Tillamook County.

A-DOF-LUS will bring joyous health to you

What Every Doctor Knows
Asthma, bronchitis, rheumatism, tuberculosis, chronic bronchitis, and other intestinal disorders. Also recommended in cases of intestinal worms, intestinal parasites, and facial eruptions. Treated in intestinal origin, and in summer diarrhea due to hyperthyroidism conditions of infants.

Mrs. Jack Newell
I am a mother of three-month-old baby. I have found it necessary to give her intestinal medicine. Now I drink A-DOF-LUS, and she is getting well. I seem to have a added vitality. The baby is inclined to be constipated, and I have been giving A-DOF-LUS. I am positive it has benefited her too. My physician, who was giving me the medicine, was telling me to give the baby a bottle, suggests that I continue using A-DOF-LUS.

4352 Mason Court
Los Angeles, Calif.

Good health does not mean that you are simply not sick, but that you are vigorously and joyously alive.

Intestinal disorders such as chronic constipation and mucus colitis, poison the blood streams and bring about headaches, facial eruptions, rheumatism and other disorders that take the joy out of living.

A-DOF-LUS is a delicious creamy health food beverage, but it is more, it is a genuine Acidophilus Milk, a recognized specific for permanently relieving all congestion and inflammation from the intestines.

30 Days Trial Will Bring You Lasting Results
Give A-DOF-LUS a 30 day trial, drink a glass with each meal, and you will find that it corrects an unhealthy intestinal condition and brings about normal natural functioning. Order A-DOF-LUS today and experience a new release of physical and mental energy.

Health with Lunch

At Fountains and Lunch Counters, 10c a glass, or delivered to your home.

SOCIETY

By JUANA NEAL LEVY

St. Stephens Church in Hollywood was transformed into a bower of pink roses, lilies, and other flowers, profusion of ferns and green plants yesterday afternoon when at 4 o'clock Miss Elizabeth Lippincott, attractive daughter of Mr. and Mrs. Charles Edward Lippincott, became the bride of Marvin Rose Kellogg, son of Mr. and Mrs. King Kellogg, Rev. Phillip A. Easley officiating.

Gardner Lippincott gave his sister

Mr. Reginald Coulson Chambers, II (Mary Lippincott), assisted her

sister as matron of honor in frock of orchid velvet, while Miss Marjorie Lippincott, Miss Mary Lippincott, Miss Jane Howell, Mrs. Leslie Cummins and Mrs. Herbert Vandenburg were the other attendants in frocks of pink satin with pink velvet hats and carried armfuls of pink roses, while the mother of Mrs. Chambers was of roses and orchid sweet peas showered with silver ribbons.

Little Mary Constance Chambers, tiny niece of the bride, was the dainty little girl in pink georgette with wreath of pink tiny rosebuds about her head.

Hugh Mann served Mr. Kellogg as best man and the ushers were Reginald Coulson Chambers II, Chauncey Cooley, Herbert Vandenburg and Volney Kincaid.

A reception and wedding supper were held at the home of the bride's parents at 100 North Boulevard, Hollywood.

Here the same color scheme was carried out as at the church, and Mrs. Lippincott was assisted by her maid, Mrs. Anna Lippincott, Mrs. Charles Randall Stephens, Mrs. George Arthur Stephens, Mrs. George Stephens, Mrs. Frederick Walker Stith, Mrs. Mary M. George, Mrs. Gertrude Stephens, Mrs. G. Neuner, Mrs. J. B. Roberts, Mrs. Ralph Mallette Burdick, Mrs. Marion Davis Rynes, Mrs. William Barnett Lindsey, Mrs. Jessie Babcock, Mrs. H. C. Babcock, Mrs. Nancy G. Hall and Mrs. Charles Summer Kent of Phoenix and Los Angeles.

The bride's table was centered with an immense mound of lilies of the valley, pink ferns, and pink roses.

Short cake. Like a plate with the pastry, on the crumbly side of the cake, was a mound of pink roses.

With this mixture, dot with the butter and top with a pink rose.

For the wedding cranberries are gathered, blanched and distributed over the signature

BEVERLY HILLS GROWTH LAUDED

Chamber Hears Story of Amazing Progress

Secretary-Manager Talks at Annual Dinner

Given Ovation by Throng as Accomplishments Told

A picture of an amazing progress accomplished by Beverly Hills during the past year was painted by E. E. Sanders, secretary-manager of the Beverly Hills Chamber of Commerce, at the chamber's fourth annual banquet, held in the ballroom of the Beverly Hills Hotel. The speaker of the evening, over whom the audience clapped his hands in attendance, was Charles Mettler, a title company and others were named defendants in the action, in which it was charged Mettler, aided by Walter A. Guest, the construction of new schools; the laying of twenty-two and one-half new miles of sewer pipe; thirty-eight and one-quarter miles of lighting standards; and various valuable work from \$25,000,000 to \$40,000,000, and a \$1,000,000 bond issue voted for a new water supply—all by a town of 12,000 population.

Taking up his talk, the accomplishments of which he declared had accomplished great things after "getting his second wind," Marshall Louis Martina, speaker of the evening, added that the district that they could make even greater progress, especially in the building line—after they got their second wind. But the city has hung up a record, he said, in building progress for the year, which totals \$9,547,574, of which 80 per cent were for construction of private homes and 82 per cent for business buildings.

A per capita building record of \$850, which he declared the largest in the country, was shown, and 1,000 trees planted; 134,573 square yards of new street paving; a population increase of 8000, making necessary the passage of two bond issues for the entire population of Beverly Hills.

Facts and figures were supplied by Sanders in his address on "Co-operative Progress," in which he lauded the efforts of the municipality's astounding development. These were, he pointed out:

CHAMBER PRAISED

DRUGGING CHARGED IN SUIT

Alexis A. De Rehnbinder, linguist and said to be a member of the Russian nobility, and his wife, Maria Emma De Rehnbinder, in the criminal case under suit which went to trial yesterday in Judge Valentine's court and in which the De Rehnbinder home on Calumet street was said to be at stake.

The defendants filed a denial of the charges and asserted the De Rehnbinder home was a cheater and not a consideration and they also asserted the check was properly endorsed and cashed.

Charles Mettler, a title company and others were named defendants in the action, in which it was charged Mettler, aided by Walter A. Guest, the

construction of new schools; the laying of twenty-two and one-half new miles of sewer pipe; thirty-eight and one-quarter miles of lighting standards; and various valuable work from \$25,000,000 to \$40,000,000, and a \$1,000,000 bond issue voted for a new water supply—all by a town of 12,000 population.

Taking up his talk, the accomplishments of which he declared had accomplished great things after "getting his second wind," Marshall Louis Martina, speaker of the evening, added that the district that they could make even greater progress, especially in the building line—after they got their second wind. But the city has hung up a record, he said, in building progress for the year, which totals \$9,547,574, of which 80 per cent were for construction of private homes and 82 per cent for business buildings.

Other speakers were Harrison Lewis, chairman, educational committee, California Real Estate Association, and May Pickford.

MULHOLLAND SPEAKER ON COLORADO RIVER

William Mulholland will speak on the Colorado River at the regular monthly meeting of the American Legion at the Hollywood Armada Arms, Wilshire Boulevard and Mariposa street, at 6:30 p.m. today. Mr. Mulholland will be introduced by Harry Chandler.

FEARS LAW MORE THAN FIRE DEATH

Suspect, Fatally Burned, Runs Mile With Seared Body to Evade Police

Fears of the police outweighed that of an agonizing death in the mind of Dallas Whitfield, alias McCutre, alias McCutre, who died at the San Pedro General Hospital yesterday from burns that covered his entire body, police reported. Whitfield, in night clothing almost burned from his body, had run a mile for his life.

According to the police story, Whitfield, suspect of bootlegging, and officers hot on his trail, had moved Tuesday from a hotel at 267 South Palos Verdes street, San Pedro to a house he had rented at 3329 Two Hundred and Fifty-third street, Harbor City.

In the small hours Wednesday the police caught up with Whitfield, slept, fully dressed, and carrying his garments, and, carrying his trousers in one hand and his hat in the other, ran a mile to a filling station. There he asked a attendant to drive him to the hotel where he formerly had lived.

The attendant complied. Suffering from the burns, Whitfield was said to be taken to a hospital, stipulating that a private ambulance, not a police conveyance, be summoned. On arrival he was given a hospital ride of two miles to the infirmary, was upright as his burned skin would be torn from his body if he reclined. He remained conscious for hours.

The house in which Whitfield was destroyed by the flames and an adjoining house damaged. Police said they found quantities of moonshine in the ruins of Whitfield's house. They are investigating the cause of the fire.

JURY HOLDS SUSPECT IN EXTORTION

Woman Accused of Asking \$55,000 from Capitalist; Five Others Indicted

Six indictments, charging various offenses against the government, were returned yesterday by the Federal grand jury.

Mrs. Orella Porino, accused of writing two letters last June, one demanding \$8500 and the second \$85,000, from James A. Jones, Los Angeles capitalist, was indicted before the mails to defraud.

The young woman, who twice attempted to kill herself following her arrest, also is accused.

Other indictments were returned as follows: Raymond Alenbaugh, accused of forging a government check; Donald G. Jones, accused of visiting the Mann Act; James Kelly and John Welch, accused of violating the Harlan and Jones-Miller antineurotic statutes; and Pradie Cuevas, accused of a minor offense against Federal regulations.

Jonathan Club Women Present Entertainment

Forty athletic young women, wives and daughters of members of the Jonathan Club, participated in the gymnasium show conducted by that organization at its clubhouse, Sixth and Figueroa streets, last night.

National, State and county gymnasium champions also participated in the program of entertainment, the first of its kind ever held by the club. Swimming and diving exhibitions were conducted following the gymnasium show. The exhibition was staged through the courtesy of Los Angeles Athletic Club. David McCrary, gymnasium instructor at the Jonathan Club, was in charge of the work.

The exhibitions included parallel bars, side horse, Roman rings, tumbling and hand balancing, and a comedy was done in addition to the Jonathan Club ladies' gym class. Dancing terminated the entertainment.

With a burning cigar in one hand and a pistol in the other, the body of Harry Wright, a veteran of the American Army in the late war, was found in the middle of Exposition Park shortly before midnight last night. Police concluded that he was found in his room at 201 East Seventh street that he had committed suicide. He was 35 years of age.

He had been in his room requested that his body be given to the nearest medical college. He also asked that a sister, Jane Wright of Glasgow, Scotland, be notified and that B. F. Smith of Temple, Texas, be advised of his death. His effects he bequeathed to charity.

DOUBT CAST ON 'SHOOTING'

Asserted Victim of Bullet in McPherson Altercation Said to Be Suffering From Old Hurt

Manfield M. James is suffering from an old hurt that shows no evidence of having been caused by a bullet, in the opinion of nurses and internes in General Hospital who have been in charge of the case since he was taken to the sanatorium Sunday night after telling a story of having been shot at close range by a Bible-carrying gunman when he attempted to stop an argument between two men that resulted from disagreement over Aimes Semple McPherson and Angeline Temple.

Hospital attachés also tell of a number of strange actions that have brought the patient to their notice since his arrival here.

HOLE IN ABDOMEN

They declare that many times James has upbraided them for their "failure to understand my case" and that he has threatened to "jump out the window and go home" if special foods and services are not provided for him.

According to physicians who have examined him, James's wound is a small hole in the abdomen that penetrates only the skin and muscle, without reaching the abdominal wall and it is hardly possible that it is the result of a shot, they say. The appearance of the wound, however, is one, it is said, although it shows evidence of having been deepest with a sharp instrument recently.

With the bullet wound, the skin would have closed up after the penetration, they point out further, whereas James's skin shows no signs of having healed.

Physicians in the neighborhood say the patient's abdomen shows several scars in the same vicinity caused by operations for abdominal ulcers, and express the belief that the wound he now has may be a similar one which recently has been opened for some purpose.

MYSTERY VISIT

James was visited yesterday by four persons who told hospital attachés that they were from Angelus Temple, but who refused to reveal their names. They spent approximately an hour with the victim, it is said.

Search for the asserted attacker of the man was ended yesterday afternoon, but the four visitors, after they had convinced themselves, they said, that his story was weak.

BOND AGENT SENTENCED AFTER HOAX

Broker Also Must Pay Fine in Effort to Substitute Negro for Prisoner

George Brown, Central-avenue bond broker, was found guilty of contempt of court in connection with his recent attempt to substitute George Lewis, negro page worker, to serve a jail sentence for Robert J. Harris, negro waiter convicted of bootlegging. Municipal Court Judge W. E. Hallinan, alias a blind-brother, and Attorney M. G. Phillips of any connection with the substitution attempt, sentenced Brown to serve five days in jail and to pay a fine of \$500. Brown, who was represented by Attorney Clare Woolwine, obtained a stay of execution until 10 o'clock this morning, when he will start to serve his sentence.

According to the police story, White, a suspect of bootlegging, and officers hot on his trail, had moved Tuesday from a hotel at 267 South Palos Verdes street, San Pedro to a house he had rented at 3329 Two Hundred and Fifty-third street, Harbor City.

In the small hours Wednesday the police caught up with White, slept, fully dressed, and carrying his garments, and, carrying his trousers in one hand and his hat in the other, ran a mile to a filling station. There he asked an attendant to drive him to the hotel where he formerly had lived.

The attendant complied. Suffering from the burns, White was said to be taken to a hospital, stipulating that a private ambulance, not a police conveyance, be summoned. On arrival he was given a hospital ride of two miles to the infirmary, was upright as his burned skin would be torn from his body if he reclined. He remained conscious for hours.

The house in which White was destroyed by the flames and an adjoining house damaged. Police said they found quantities of moonshine in the ruins of White's house. They are investigating the cause of the fire.

MARSHALL WILL LEAVE SAWTELLE

Head of Soldiers' Home Given Danville (Ill.) Post; Maj. Hadley Comes Here

A sudden switching of executives between the Sawtelle Soldiers' Home and the Home at Danville, Ill., became known yesterday. On December 1, Gov. Frank M. Lowmyer, who has been in command at the Sawtelle Home for five years, will become Governor of Illinois. He will be succeeded by Lt. Gov. John A. Hadley, who has had charge at Danville for eight years, will become Governor of Illinois.

The young woman, who twice attempted to kill herself following her arrest, also is accused.

Other indictments were returned as follows: Raymond Alenbaugh, accused of forging a government check; Donald G. Jones, accused of visiting the Mann Act; James Kelly and John Welch, accused of violating the Harlan and Jones-Miller antineurotic statutes; and Pradie Cuevas, accused of a minor offense against Federal regulations.

Captain Youngwife finds the Chest of her fondest Quest

SHE sailed and sailed the shopping seas . . . hoping some day to find it. But always the treasure eluded her.

"Sixes" and "twelves" were everywhere. But never a set of "eights".

"Twelve is too many", she sadly sighed, "for my normal table needs. And six doesn't provide a spare or two for the unexpected guest."

But time and tides are kindly to Captains fair and patient. In a gorgeous chest, she beheld, one day, her long-sought "Pieces of Eight"! Eight of each, instead of the usual sixes or twelves, in hollow handle dinner knives with stainless steel blades, dinner forks, dessert spoons and tea spoons, with a sugar shell and a butter knife to complete her "just right" service.

And now all voyagers on the shopping seas may share this silsime treasure. For the new **Pieces of Eight** Set in 1847 ROGERS BROS. Silverplate is now being featured at THE SILVERWARE SHOW holding sway this month at the stores of all good silverware dealers.

There are tea and dinner sets to match any of the 1847 ROGERS BROS. knife and fork patterns

HOOVER'S WORK PRAISED

Secretary's Aid to Foreign Business Stressed in Address at City Club

Prolonged applause followed the mention of the name of Herbert Hoover at the City Club yesterday when Maurice Carasco, past president of the World Traders of Los Angeles, spoke in glowing terms of the long service of the Secretary of Commerce in behalf of national prosperity.

Speaking on "Trading With the World," the imports being \$14,226,572,285 and exports \$4,818,722,425.

"We have \$10,400,000,000 invested in foreign countries, and our imports of \$1,200,000,000," said Mr. Carasco. "Last year America produced 220,000,000 pounds of prunes, 80 per cent of which were exported. We shipped abroad last year 1,000,000 cases of dried fruit, 90 per cent of which was only 10 per cent of the total."

Women, too, have attained an eight-year handicap in the same period in 1916 when, according to national insurance commissioners in convention here, the average span was only 42 years.

Women, too, have attained an eight-year handicap in the same period in 1916 when, according to national insurance commissioners in convention here, the average span was only 42 years.

HOTEL ASSURED FOR FLINTRIDGE

Two Other Large Building Property Sold

Developments for Day More Than \$2,000,000

Four Choice Pieces of City Projects Announced

Three projected buildings costing together more than \$1,750,000, and the sale of four choice pieces of property throughout the city, brought yesterday's major realty development to \$2,020,000, when regarded in monetary terms.

Featuring the day's announcements was the definite assurance that a \$750,000 150-room tourist hotel will be constructed in Flintridge. The structure, now under way, will be built for former Senator Frank P. Flint, and will be known as the Flintridge Hotel. It will be from one to four stories in height and will be constructed in the motif of rambling California-Spanish architecture and will spread over a six-acre knoll on the south side of St. Katherine Drive, Flintridge.

The landscape surroundings of the hotel will cover an area of thirty acres. Senator Flint will be the owner of the property, which will be constructed on property costing approximately \$500,000.

The hotel will be built in the southwest corner of Jefferson and Melrose avenues, was announced in the purchase of that site yesterday by Ralph M. Smith of the Ventura Land and Water Company and a corroborator of a recent and proposed increase in the value of the site by K. E. Super, realty broker, who handled the deal.

The property, a portion of which is occupied by the University Methodist Church, was sold for a price of \$100,000, it was said. Mr. Smith plans to erect a first-class theater on the site, Super declared.

The third of the day's large projects was the announcement of Architects Walker and Eissen that the

Three Trains Running on 63-hour Schedule from Chicago Arrive

A New Era in Transcontinental Railway Transportation Was Ushered in Here Yesterday with the arrival of three new trains running on a 63-hour schedule between Chicago and Los Angeles, over the Southern Pacific. Union Pacific and Santa Fe lines—the first of the trains to reach the city on the shortened running time. All were on time or ahead of schedule. Railroad officials and employees, as well as Chamber of Commerce executives and members of the public, met the trains as they arrived—the Los Angeles Limited and the Chief of the Union Pacific and Santa Fe, respectively, at 9 a.m., and the Southern Pacific's Golden State Limited at 9:30. Photo at left shows officials greeting engine crew of Los Angeles Limited; middle, officials, crew and greeters on engine of the Chief, and, right, welcoming the Golden State Limited in. (Times photos.)

Europe's Bad Boy, Prince Carol of Romania (above) is very much in the limelight since a possibility of reconciliation with parents looms. (P. & A. photo.)

Like a Big Eagle Circling Above Its Nest on a mountain crag, America's largest dirigible, the Los Angeles, is caught in the above unusual photo high above the dome of the Capitol at Washington. Photo was taken during a recent cruise of the dirigible to Norfolk, Va. (P. & A. photo.)

HAVING OCCUPIED CULPEPER, VIRGINIA, GENERAL POPE, COMMANDING THE UNION "ARMY OF VIRGINIA" SENT HIS CAVALRY FURTHER SOUTHWARD TO THREATEN GORDONSVILLE WHERE THE RAILWAY FROM THE NORTH MET ANOTHER RUNNING EAST FROM STAUNTON. FEDERAL CAVALRY SWEEPING TOWARD ITS OBJECTIVE, OCCUPIED ORANGE COURT HOUSE.

These daily history strips make a unique pictorial history of America.

MEANWHILE, "STONEWALL" JACKSON WITH HALF OF LEE'S ARMY (ABOUT 24,000 MEN) WAS ON THE WAY FROM RICHMOND TO PROTECT GORDONSVILLE, REACHING THAT PLACE HE TURNED TO THE NORTH AND, DRIVING THE UNION CAVALRY BEFORE HIM, MARCHED TO OPPOSE THE FEDERAL CORPS OF BANKS AND SIEGEL THAT WERE MOVING FROM CULPEPER TOWARD THE RAPIDAN.

EARLY IN AUGUST, 1862, JACKSON CROSSED THE RAPIDAN AND HURLED A PORTION OF HIS ARMY UPON BANKS AT CEDAR MOUNTAIN. BANKS, THOUGH OUTNUMBERED, FOUGHT DESPERATELY BUT HIS TROOPS WERE DEFEATED AND DRIVEN BACK ON SIGEL. JACKSON THEN RECROSSED THE RAPIDAN WITH HIS ARMY.

HERE JACKSON HALTED AND WAITED FOR THE LATTER TO COME UP. THE LATTER HAD BEEN HOLDING OUT SINCE THE WITHDRAWAL OF McCLELLAN FROM THE "PENINSULA" AND, WHEN ADVISED BY HIS GENERAL OF THE POTOMAC WAS REALLY PLANNED TO CRUSH POPE BEFORE TOMORROW—JACKSON'S PLANS

Hundreds are clipping them daily and pasting them in scrapbooks.

The broadest stairway in America

It's only 50 feet deep—but it's 3,000 miles wide—

It's here in Los Angeles—yet it's from Coast to Coast

the broadest savings in the clothing industry

Our stairs—from one end of the country to the other: Your savings—from one end of the industry to the other!

Open Until 9 P. M. Saturday

Only two

and Save \$10.

6% year round
overhead
instead of 30%

55¢ average
profit
instead of \$5.50

Guess what this means, when the U. S. Government itself names 30% as a reasonable manufacturing overhead expense. The secret, of course, lies in operating our five factories *without* selling costs or middleman's profit, existing *only* to supply our own big upstairs stores with fine hand-tailored clothes. The difference... 25% of the manufacturing cost, is one of your guaranteed savings!

Glance at our 6% overhead, then at our 55¢ profit, both proved by sworn statement from the International Public Accountants, "Haskins and Sells"! 1/5 the average overhead. 1/10 the average profit!... during the entire twelve months of 1925.

Is it any wonder that the public built this business from \$310 to \$10,000,000 volume!

3 week style
service
instead of 3 months

What we save men is half
the story. What we GIVE
them is the bigger half.

We give you new style,
finer fabric, hand tailoring.
Three weeks after a new
fashion is designed and pro-
duced in our big New York
factories, it's right here on
the plain racks of this big
upstairs store! Priced at one
small profit to us and a big
profit to you.

FRIDAY MORNING, NOVEMBER 19, 1928
TAR YIELDS
MOTOR GAS

Supply Assured
for 800 Years
Cracking Process Gives
More Mileage Than
Ordinary Fuel

Conference Suggests Fund
for Study of Coal and
By-products

WHEELING, Nov. 18. (P)—The
bituminous coal deposits of the
United States can supply the world's¹
need for motor fuel for the next
50 years, according to Dr. Gustav
A. M. Schaeffer, technical director, Universal
Products Company, Chicago.
In making this prediction tonight
at the final session of the international
conference on bituminous coal at
Carnegie Institute of Technology,
Dr. Schaeffer described how he had con-
cluded that coal could be extracted from coal into
motor fuel through the medium of
cracking process.

Dr. Schaeffer said the motor fuel he
predicted will double the mileage per
gallon as compared to ordinary gaso-
line while operating a high-compre-
sion motor. "The superior quality of
this type of motor fuel is due to
the high percentage of aromatic and
other hydrocarbons contained
in it," he said.

THIRD OF SUPPLY
The United States has approximately
1,000,000,000 tons of the 3,154,-
000,000 tons of bituminous coal in
the world on the basis of estimates.
By means of low temperature distilla-
tion of this quantity of bitumi-
nous coal," he continued, "800,000,-
000 tons of tar can be produced
which will yield 240,000,000 barrels of
motor fuel of high anti-knocking
properties."

BALLS OF COAL
Charles E. Wines of the Carbon
Company, Canton, placed be-
fore the conference what he termed
"little pieces of coal, nothing more
than a ball." The product is smooth, irregu-
lar, round, of varied shapes and
dimensions. In the process Wines
said he had to dry coal into
balls and that the hot, dry coal was
in condition for combustion into
gasoline as soon as it flows into the carburetor.
The majority of the establishments
engaged in the production of
gasoline work at Carnegie Institute of
Technology, the technical department
of Carnegie Tech. The work is
done in the basement of such a foundation
that while no plans to that end
have been made, it can be felt "that no city
in the country is better equipped to
raise the question of scientific cre-
ation of coal than is Pittsburgh."

BANK CASHIER HELD
CLINTON (Ark.) Nov. 18. (Ex-
-John R. Jones, cashier of the
Bank of Duncan, arrested un-
der suspicion of having been held
up last night. His case will be heard at the
term of the Superior Court.
